

Homily Feedback Process 1

This process and the related feedback forms might be used in several ways:

1. A seminarian
2. A newly ordained person
3. Lay preachers
4. More experienced preachers

There are three forms as part of the packet. They vary in style. Form 1 may be most useful when the exploration with the person intentionally includes issues of "use of self."

1. Before the Eucharist some of those present are asked if they would spend a few minutes filling out a feedback sheet.

2. The completed forms are given to the homilist. He/she looks them over.

3. Either those who completed the feedback forms or just one trusted person sits with the homilist for a few minutes and explores:

- What do you hear people saying to you?
- What do you think went well?
- What do you think you might do differently (in a similar situation)?

4. If the "trusted person" has the skills -- coaching might be offered
